

Overview of expected school costs HLML Bilingual Education (TTO) for the school year 2021-2022

Below you will find a financial overview per year class and subject. This way you will have an overview of the expected costs for the school year 2021-2022.

TTO contribution

Bilingual education is an additional offer that depends on the TTO contribution. It is a collective offer that is organised for a class, year group or school as a whole, which includes, for example, extra English lessons, costs for the IB exam/FCE exam, Immersion camp (bridge class), compulsory courses and memberships. The TTO contribution does not include working weeks/school trips. These contributions are charged separately. If the income from parental contributions is insufficient to finance the offerings, activities or programmes may not be able to take place collectively. We have an arrangement in case parents do not pay the parental contribution immediately. Think of the possibility of paying in instalments.

It is our goal that all students can participate in our programme. We assume that this goal is shared by all parents.

General school contribution*

As a school, we ask parents for a voluntary financial contribution for extras that are not covered by the Ministry. That contribution is EUR 61. The contribution is not required by law, but we urge parents to pay the amount. Each year, the school determines the amount of money and how it will be spent. This is done in consultation with the parent section in the Participation Council.

Parents' council contribution

The Parent Council asks parents for a voluntary contribution of €12.50. This contribution covers, among other things, the costs of the theme evening for parents, a contribution to special activities such as the graduation ceremony, the class marathon, healthy sandwich day, fruit on sports days and many other festive activities for the students.

Digital payment system

The Haarlemmermeer Lyceum works with a digital payment system for processing payments to the school. This gives you the possibility to settle payments directly via iDEAL. The mail will be from WisCollect.

Payment arrangement / Financial support

The HLML has a payment scheme in instalments, so payments above € 130.00 can be made in 2 instalments, but customisation is also possible if required. Please contact the administration at the following e-mail address wiscollect@haarlemmermeerlyceum.nl.

If, due to circumstances, you are (temporarily) unable to pay the requested school fees, there are possibilities for your child(ren) to make use of extra provisions and facilities:

- Under certain conditions, you can apply for a school expenses allowance from the municipality where you live. The regulation may differ from one municipality to another.
[Child package - Municipality of Haarlemmermeer](#).
- In addition to the schemes mentioned above, there are also national schemes for which you may qualify. These can be found at <https://www.nibud.nl/consumenten/tegemoetkomingen-in-schoolkosten/>

The amounts mentioned for school activities and school trips are based on prices that applied before the **COVID-19 crisis**. Due to the crisis, school activities and trips may be more expensive than we

expected. These amounts are therefore indicated as "approximate" amounts. The school management reserves the right to make changes/additions to the costs during the school year.

⁴ The parents/guardians must (if they wish) take out cancellation and/or additional travel insurance themselves (not all costs are covered).

A travel insurance with ski/snowboard coverage is necessary for the ski trip.

⁵ For trips outside Europe, parents/guardians must arrange their own travel cancellation insurance and health insurance with world cover.

⁶ This amount may be higher due to epidemics, pandemics and infectious diseases. In that case, the parents/guardians will be asked for an additional contribution.

⁷ Costs for visa / medical / other declaration etc. are at the expense of the parents/caretakers.
